VEHICLE MODEL

TERRITORY

**Emissions:** The information shows how environmentally friendly the vehicle is based on carbon dioxide tailpipe emissions. These emissions come from burning fuel in the engine of a petrol or diesel powered vehicle. Carbon dioxide is emitted from the tailpipe and goes to Earth's atmosphere, where it contributes to climate change and is harmful to the environment. The amount of carbon dioxide your car produces is in direct proportion to how much fuel it uses. Battery electric vehicles produce zero tailpipe emissions.

**Energy Economy:** The information is intended for comparative purposes. Data is based on standardised testing that allows consumers to directly compare the emissions and fuel consumption of different vehicle makes and models. Your actual cost per year, energy economy and/or EV range will vary for many reasons including driving styles, traffic and weather conditions, vehicle loading, vehicle maintenance and tyre pressure.

**Disclaimer:** The safety rating displayed on this label is for comparative purposes. Safety ratings indicate the likely performance of a vehicle in a crash. Actual safety performance depends on various factors such as crash circumstances, vehicle repair history and vehicle maintenance. Safety ratings are reviewed annually. The safety rating displayed is current at the time of printing.
